

AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS

Claim 1 (currently amended): An electronic torsional tool, comprising:

a main body; and

a strain gauge mounted in the main body;

wherein, the main body is provided with an opening to enhance flexibility of the main body and to increase deformation of the strain gauge; and

the strain gauge is mounted in the opening of the main body.

Claim 2 (currently amended): The electronic torsional tool in accordance with claim 1, wherein the opening is extended through a whole longitudinal length of the main body.

Claim 3 (currently amended): The electronic torsional tool in accordance with claim 1, wherein the main body is provided with a handle portion and a drive portion located at a distal end of the handle portion, and the opening is extended through the handle portion and the drive portion of the main body and a whole length of the handle portion and the drive portion of the main body.

Claim 4 (canceled)

Claim 5 (original): The electronic torsional tool in accordance with claim 1, wherein the opening of the main body has a substantially U-shaped cross-section.

Claim 6 (original): The electronic torsional tool in accordance with claim 1, wherein the opening of the main body has a substantially I-shaped cross-section.

Claim 7 (original): The electronic torsional tool in accordance with claim 1, wherein the electronic torsional tool is an electronic torsional wrench.

Claim 8 (original): The electronic torsional tool in accordance with claim 1, wherein the electronic torsional tool is an electronic torsional socket.

Claim 9 (original): The electronic torsional tool in accordance with claim 1, further comprising a cover directly mounted on the main body in a riveting manner.

Claim 10 (currently amended): The electronic torsional tool in accordance with claim 9, wherein the cover encompasses a whole portion of the opening of the main body.
